DepoView[®]
Video Review Software

INDATA'S NEWEST VIDEO DEPOSITION VIEWER

DepoView allows you to create video clips, search transcripts, and much more! DepoView is the easiest way to review, search, and extract key testimony from your video transcript.

Use the Word Index to Hyperlink to any word

View all exhibits for this deposition

Search any keyword in your transcript

Create clips by highlighting testimony

Click to view linked exhibit

Click to edit and export clips to PowerPoint

Just push **Play!**

Take a snapshot of any frame in your video

Present your video in full screen mode

The screenshot shows the DepoView application window with a menu bar (File, Edit, Clips, Help) and two tabs: Word Index and Exhibits. The Word Index tab is active, displaying a list of time-coded entries. The main transcript area shows a deposition transcript with a search bar and buttons for 'Clip' and 'Hi-Lite'. A video player on the right displays a woman in a deposition setting. The video player includes a progress bar, a play button, and a snapshot button. The status bar at the bottom indicates 'Pg 4'.

DEPOVIEW INSTANTLY ADDS VALUE TO YOUR VIDEO TRANSCRIPTS BY ALLOWING YOU TO:

- › View video transcript testimony and create clips - it's as easy as using a highlighter!
- › Use keywords to search through transcripts and jump directly to specific video segments
- › Review linked exhibits related to the deposition
- › Print full page or condensed versions of the transcript
- › Export clips with synchronized text to Microsoft® PowerPoint®
- › Present video in full screen mode
- › Take snapshots of any frame in your video
- › Export synchronized video depositions with linked exhibits to other major programs such as TrialDirector®, LiveNote®, and Summation®
- › Copy and paste key testimony excerpts for use in summaries, motions, and briefs
- › Create single and multi-segment clips; edit multi-segment clips to 1/10th of a second
- › Email video clips

Ask your court reporter or videographer to deliver video depositions in DepoView format.

inData is a technology company specializing in the management and presentation of information. For legal professionals dealing with the challenges of litigation, inData develops innovative software products and provides personalized eDiscovery and trial consulting services.
